## **Home School Agreement**

Frederick Gough remains at the heart of the community which we serve. We are a community school and our main aim is to ensure that all of our children leave as individuals who are academically successful, happy, sociable, well rounded and ready to succeed with their next steps in life. Learning is at the centre of all that we do and we are proud of the achievements of our children.

Children are successful here because; we personalise the curriculum within the framework set by the government, have accurate tracking of achievement with feedback, use FROG to ensure that all students have flexible access to appropriate learning & teaching resources and have strong parental communication and a supportive safe and caring environment that is regularly endorsed through parental feedback.

Frederick Gough is a mixture of the traditional and the modern. We expect children to be polite and to open doors for people, but equally the staff also do that for students.
